SPX-PA9210 Portable Sound System ABS 2x10"

A professional double 10" 1000W portable sound system with BT-receiver, featuring 2 UHF wireless microphones, remote control and integrated USB and SD slots for MP3 playback. This all in one system operates via mains or a 12V internal re-chargeable battery. On the back you will find inputs for a wired microphone (6.3mm Jack and XLR), AUX line input (3.5mm), Stereo line input (RCA and XLR) and an output (XLR) to connect a second active speaker. Due to this exciting system, premises and areas can be filled with an ear pleasing sound. The SPX-PA9210 is also provided with a trolley with telescopic handle for easy transportation.
