

## PDA-10A Active Speaker 10" / 700W

This PA 700W active loudspeaker can be practiced in a variety of PA setups. The speaker can be used to connect with other active speakers and can be daisy chained. The speaker has a wide frequency response and an accurate and transparent sound. The 10" low/mid woofer delivers a smooth, low-frequency performance with an excellent reliability. Comes with ABS scratch resistant housing, bass and treble control, line and mic inputs, a sophisticated crossover network, high power compression driver with a wide dispersion horn, making the speaker operating perfectly in an acoustic environment. Recommended for Bars, Restaurants, Karaoke, Conference rooms, Small halls, Stage Monitoring, Fitness etc.
