PD-510A Active PA Speaker 10" 300W

The PD-5 series is a series of high-quality professional sound reinforcement active speaker cabinets with high efficiency amplifier which supply very high power levels with low distortion and a wide and smooth frequency response at any listening position (short and medium distances). PD-5 series speakers are ideal for a wide range of applications, such as disco, cinema, club, cafe, restaurant, sport facilities and other entertainment. The power module includes a two-channel mixer featuring line and microphone inputs with separate level controls and a 2-band tone control. Clip indicator indicate maximum level so easy adjust the system to get a clean sound with no distortion. They are an extremely cost-effective solution for professional applications.

This active 10" PA speaker has a music power of 300W, generating an acoustic pressure level of 122dB and provides an astonishing experience. Can be operated as top or full range speaker. Comes with integrated fly points for rigging. Also ideal for use as stage monitor.

Peak power	600W
Power music	300W
Power rms	210W
Impedance	4 Ohm
Frequency response	45Hz - 17kHz
Crossover frequency	2.8kHz
SPL @ 1W/1m	97dB
SPL max	122dB
Woofers	10" (2" coil / 40 oz)
Horn	Dynamic (1.35" coil / 10 oz)
Top hat	Yes
Dimensions	320 x 320 x 520mm
Weight	17.5kg

- Active PA speaker
- Class-D mosfet amplifier
- Music power 300W
- Microphone and line inputs with independent level control
- Two-band tone control
- Can be operated as top or full-range speaker
- Fly points for rigging
- Extra hard coating
